<b>TIMEFRAME</b>	<b>2006–2008</b>
<b>SERVICE PHASE</b>	<b>LPH (HOAI) 1–5, OAM 6–8</b>
<b>SIZE</b>	<b>GFA above-ground 56,500 m<sup>2</sup> façade 28,000 m<sup>2</sup></b>
<b>AWARDS</b>	<b>Multiple commission, 1st prize, 2006</b>

For aesthetical, economic, and structural reasons **DZ Bank** decided in 2006 to replace the facade. In addition to work on the facade itself, elaborate structural changes were made with a view to repositioning the edifice in the urban fabric. Today, **CITYHAUS I** boasts a bright, appealing façade, its spacious two-story entrance hall opening onto downtown. The new entrance area is wide and bright, and was enhanced through the use of high-quality material in the form of light beige natural stone.
